Skills

- **Programming Languages:** Java, Python, C, C++, HTML, CSS, JavaScript
- **Web & Full-Stack:** React, Vite, Spring Boot, REST API, MySQL, WebSocket
- **Frameworks & Tools:** JavaFX, FXML, SDL2, JWT, Apache PDFBox
- **Security & CTF:** Web, Crypto, Reverse Engineering, Forensics
- **Competitive Programming:** Solved 600+ Problems

Education

- **University of Dhaka** — Dhaka, Bangladesh
B.Sc. in Computer Science & Engineering, 2024 – Present
Expected Graduation: 2028
- **Ispahani Public School & College** — Cumilla, Bangladesh
Higher Secondary Certificate (HSC), GPA: 5.00 / 5.00 — 2023
PCM Average: 96%
- **Ispahani Public School & College** — Cumilla, Bangladesh
Secondary School Certificate (SSC), GPA: 5.00 / 5.00 — 2021
PCM Average: 100%

Experience

Software Developer — Personal Projects

2025

- Developed **MediMart**, a full-stack medical store management system with React + Spring Boot, featuring secure authentication, real-time stock updates, and PDF invoice generation.
- Built **Escape Room Conquest**, a multi-level C++ SDL2 game with puzzles, AI-driven challenges, and interactive gameplay mechanics.
- Technologies: Java, JavaFX, React, Vite, Spring Boot, C++, SDL2, MySQL, WebSocket, JWT

Academic Projects

MediMart - JavaFX Desktop Version

[Repo](#)

- JavaFX-based pharmacy management system for inventory control, customer shopping, order placement, billing, and authentication.
- MVC architecture with modular services and SQLite integration.
- Implemented user/admin authentication, cart/billing system, order management, PDF invoice export, and real-time stock sync.
- Built a responsive JavaFX UI with FXML and CSS styling.

Escape Room Conquest Game - C++, SDL2

[Repo](#)

- Multi-level escape room game with Horror, Sci-Fi, and Mystery levels.

- Puzzles: RSA decryption, Tetris mechanics, circuit puzzles, projection challenges.
- Real-time gameplay: countdown timers, event-driven input handling, interactive maps.
- Adaptive AI assistant (J.A.R.V.I.S.) to monitor player actions.

MediMart - Full Stack Web Version

[Frontend Repo](#), [Backend Repo](#)

- Full-stack system with React + Vite frontend and Spring Boot backend.
- Medicine browsing, cart/order management, notifications, PDF invoice generation.
- Secure backend: REST APIs, JWT authentication, OTP-based password reset, WebSocket real-time updates.
- Admin dashboard: inventory monitoring, medicine management, order tracking, analytics visualization.

DSA Practice Repository — GitHub

[Repo](#)

- Solved 600+ algorithm & data structure problems: Arrays, Strings, Linked Lists, Trees, Graphs, Dynamic Programming.
- Organized code with proper structure, comments, and problem categorization.

Achievements / Hobbies

- Competitive Programming: Codeforces (1173), CodeChef (1327), LeetCode – 600+ problems solved
- CTF Competitions: Ranked 52nd in Al Khwarizmi CTF 2025
- Hobbies: Problem-solving, App Development, Cybersecurity, Exploring new technologies, Playing Cricket
